

Fire Marshal Training

Introduction

This course is aimed at employees with responsibility for identifying fire hazards and implementing risk control measures

On completion of the training, delegates will have a sound understanding of the following principles and in doing so; this will help to fulfil the requirements of the Regulatory Reform (Fire Safety) Order 2005.

Key content of training

- Causes and characteristics of fire
- A practical approach to preventing fire starting in the workplace and preventing its spread
- Key principles of fire detection, raising the alarm, fire fighting and evacuation to a place of safety
- Role of a fire warden
- A demonstration on the safe use of fire extinguishers

Duration: Half day

Venue: To be advised

Certification: All attendees will receive a Training Certificate

All courses are delivered by qualified trainers with extensive experience in industry and/or enforcement agencies.
